+44 7400665028 , +393492353643 (speaks English, Italian, Spanish, French)

PERFORMANCE

The elephants can either perform up to 4-5 short walks throughout the day or 1 longer parade.

They need a short break every 10 minutes of walking and a 10 minutes break every 30 minutes.

During the breaks the elephants will be resting on easels and the audience members will be able to touch them and take photographs while the elephant keepers will animate the trunks.

During longer breaks the elephants need to be manned by personnel from the festival\venue while the puppeteers rest.

GET IN / GET OUT:

Each big elephant requires 1 hour to be built and dismantled.

The baby elephant is ready in 20 minutes.

Access to performing area with Luton Van required, or as close as possible to the performance area.

Warm and dry changing room for the puppeteers, as close as possible to the performing area.

DIMENSIONS:

Small elephant: 1.10 m height, 1.20 m length, 0,8 width

Big elephant: 3 m height, 5 m length (with trunk)

PERFORMANCE AREA:

The performance area should be as flat and even as possible. Please do let us know if there are obstacles of any kind.

In crowded environments the festival\venue should provide extra personnel to make sure that the path is clear.

The elephants can only climb small steps such as a low curb. Steep slopes slow them down considerably.

TRAVEL

1 van for each elephant + 1 car from\to Norwich

4 Puppeteers + 1 Tech crew for each big elephant

2 Puppeteers for the Baby Elephant.

Accommodation required for late events.

PARKING

Secure parking close to the venue for vans and car.

STORAGE:

The Elephants must be stored in a safe dry place overnight, as close as possible to the performing area
